COVID UPDATE JUNE 2021

Dear Parents

Our president confirmed that the country was in the grips of the third wave of COVID 19 infections and promptly placed us on alert level 3.

I would like to urge everyone to heed the warnings and be extremely careful. All non-pharmaceutical measures must be strictly adhered to.

We have been relatively fortunate to have had only two staff members test positive and I am happy to report that both recovered and have, on the advice of doctors, returned to school. There have not been any more than four learners away from school on any given day, after testing positive. These learners are also either on their way to recovery or have recovered from COVID 19. During this time other learners have had to quarantine after being in close contact with people who have contracted the virus.

It is encouraging to see that the education sector is next in line to be vaccinated. The attainment of herd immunity is our hope for flattening the curve.

Yours sincerely
